

SMART Board™

Interactive Whiteboard

Productivity Tools Go Beyond Desks

To be productive, groups need to use networks, files and websites – no matter where they are. Put this information at your group's fingertips with the SMART Board interactive whiteboard, so groups can work with the information they need, when they need it.

The SMART Board interactive whiteboard connects to your computer and a projector. With the touch of a finger, group members can interact with computer materials and their finger becomes the mouse. They can write with digital ink over anything and save their notes to a single file for easy distribution. They can wirelessly connect laptops and transfer control of the interactive whiteboard between users. Free software upgrades and an expansion slot for future hardware additions ensure that as your organization grows, the SMART Board interactive whiteboard grows with you.

Put It to Work for You

How can it help your organization? That depends on what you do.

Project managers capture progress notes and track decisions, then save the notes and e-mail them to stakeholders as a progress update. Designers use it to present plans to clients and incorporate their feedback immediately, saving valuable time during the design process. Fire departments create training simulators – ensuring staff receive realistic but safe training. Lawyers grab jurors' attention and help them understand evidence by presenting and interacting with the material. No matter where you are and what you do, the SMART Board interactive whiteboard can help maximize productivity.

"We believe with the SMART Board interactive whiteboard we've overcome the biggest challenge faced by lawyers. Juries are absolutely on the edge of their seats watching the information come to life. Evidence is no longer just heard. It's heard and seen."

Touch the interactive whiteboard to control computer applications, and write in digital ink over any application.

Features

Touch system – Write, erase and perform mouse functions with your finger, a pen or an eraser – you need no proprietary tools.

SMART Pen Tray – Pick up a pen or the eraser, and the pen tray automatically detects which tool you've selected. Buttons activate the On-Screen Keyboard, right-click and help function.

Digital ink – Write in digital ink over applications, websites and videos.

Save function - Capture your work to SMART Board software as a screen shot that you can edit, or save your notes directly into several software applications, including Windows® versions of Microsoft® PowerPoint®, Word and Excel, or into AutoCAD® software.

Durable surface – The hard-coated polyester surface is tear proof, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.

Wall-mount bracket – Install your SMART Board interactive whiteboard simply and securely.

USB cable – Connect the SMART Board interactive whiteboard to your computer.

Expansion slot – Add future hardware upgrades such as a projector-control button.

Floor stand (optional) – Mobile, height-adjustable floor stand that includes heavy-duty, locking casters and stabilizing safety guards.

Speakers (optional) – 15-watt, stereo-amplified speakers, with a two-port USB hub, that mount to the SMART Board interactive whiteboard or the wall.

Wireless connection (optional) – Connects your computer via USB and Bluetooth.

Warranty – Five years upon product registration, two years standard.

Model	Active Screen Area (diagonal)
680	77" (195.6 cm)
660	64" (162.6 cm)
640	48" (121.9 cm)

SMART Board Software

Notebook™ software – Save images, screen captures and notes into a single, presentation-ready file. Convert handwriting to text and save notes and images directly into many software applications.

SMART Board Tools – Type with the On-Screen Keyboard, write over digital video, record a presentation and much more.

LinQ™ software – Control your laptop or Tablet PC from the interactive whiteboard. LinQ software uses your wired or wireless network to create a quick connection between devices.

System Requirements Windows Operating Systems

Pentium® 150 MHz processor (Pentium II processor or later recommended) • 48 MB of RAM (128 MB recommended) • Windows 98 operating system or later • 110 MB of free hard disk space for complete installation

System Requirements Mac OS Operating System Software

350 MHz processor • 256 MB of RAM • Mac OS X (version 10.1 or later) • 110 MB of free hard disk space for complete installation • **NOTE:** Other versions of SMART Board software are available for UNIX® and Linux® systems, as well as for earlier Windows and Mac OS operating systems.
